

Prior Learning Assessment and Recognition (PLAR) for BTTM4130 *Global Energy Development and Society*

Required Evidence

This section provides information on the evidence that a student must complete and submit to request PLAR credits for this course. To request PLAR credits for this course, please submit a copy of the [PLAR credit request form](#) and the required evidence to transfer@nait.ca.

Learning Outcomes	Required Evidence
Learning Outcome 1: Evaluate the effect that energy development has on society and the environment.	<ul style="list-style-type: none">• Completion of a challenge exam
Learning Outcome 2: Explain physical and chemical principles of energy and quantitatively assess energy conversions.	
Learning Outcome 3: Analyse the effects that access to increasing quantities of energy has had on societies across space and time.	
Learning Outcome 4: Analyse the potential of fossil energy sources and assess their impact on society and the environment.	
Learning Outcome 5: Analyze the potential of non-fossil energy sources and their impact on society and the environment.	
Learning Outcome 6: Evaluate proposals for energy development including their impact on society and the environment.
