

Prior Learning Assessment and Recognition (PLAR) for ACPA1250 ECG Interpretation

Required Evidence

This section provides information on the evidence that a student must complete and submit to request PLAR credits for this course. To request PLAR credits for this course, please submit a copy of the [PLAR credit request form](#) and the required evidence to transfer@nait.ca.

Learning Outcomes	Required Evidence
Learning Outcome 1: Describe cardiac anatomy, physiology, and electrophysiology.	To receive PLAR the student must successfully complete the following noncredit courses: NURS0152 Basic ECG Rhythm Interpretation NURS0154 Introductory 12 Lead Electrocardiography. Offered by school of Continuing Education, MacEwan University. Final exams for each course must be supervised. See attached course descriptions.
Learning Outcome 2: Explain an ECG and its components as a diagnostic tool for use in patient assessment and care.	
Learning Outcome 3: Interpret sinus and atrial rhythms on an ECG.	
Learning Outcome 4: Interpret junctional rhythms, ventricular rhythms, and atrioventricular (AV) blocks on an ECG.	
Learning Outcome 5: Interpret artificial pacemaker rhythms on an ECG.	
Learning Outcome 6: Analyze a 12-lead and 15-lead ECG for patient assessment and treatment in various presenting clinical situations.
