

NORTHERN ALBERTA INSTITUTE OF TECHNOLOGY BECOMES TABLEAU CERTIFIED TRAINING CENTRE

By 2020, businesses globally will generate 50 times more data. With this increased amount of data, public and private sectors businesses will need an effective and easy-to-use tool to analyze data for business intelligence in order to gain insights into their operations, customers and employees.

Tableau is emerging as one of the most sought after visual analytics tool in business intelligence sector.

To satisfy the increasing demand for Tableau training in Alberta, Tableau has licensed NAIT's Computer Training Centre (CTC) as an Authorized Training Center for Tableau courses, with future plans to provide certifications.

"Being the first Tableau Authorized Training Centre in North America will give NAIT the foot print to deliver Tableau training to professionals in the greater Edmonton area. This will meet the burgeoning demands of Alberta's IT industry and provide skills employers want for doing BI Visualization and Dashboarding", said Surinder Padem, NAIT CTC Program Manager.

"Collaboration with NAIT to support Tableau's significant growth in the Western Canada market is greatly appreciated", says Derek Nogiec, Tableau Managing Director for Canada. "Customers large and small need a strong training partner to support their employee training and development."

Brian Nutt, Tableau's Vice President of Global Services, views its Authorized Training Center program as an extension of our commitment to provide high-value education to all of our customers. Partnering with NAIT as our premier ATC in the Americas is an important step forward to ensure customer success with Tableau in Canada.

Additional Information and to enrol for upcoming courses can be found at:
