Re: Eligibility for MBA Degree Admission at Vancouver Island University

Dear Joe:

This letter is to confirm that graduates of NAIT's Bachelor of Technology in Technology Management program are eligible for admission to the Vancouver Island University-University of Hertfordshire dual Master of Business Administration- Master of Science in International Business program.

Actual admission to the program is competitive and the candidates deemed most likely to succeed in the program and in their career are selected by the committee based on undergraduate GPA, work experience, English language skills and personal characteristics as demonstrated in their application.

Yours truly
