CURRENT STUDENT STORY

DEOGYNE NGESA

COMPUTER ENGINEERING TECHNOLOGY
1ST YEAR

"After high school I did two French diplomas back in Kenya before I came to NAIT. My choice was influenced by the fact that I am curious on how computers work and wanted to expand my knowledge through more hands-on learning. There are many things to do on campus; however, my favourite memory during my time at NAIT was the Mosaic Festival."

NAIT PROGRAMS

PROGRAM AREAS:

BUSINESS AND MANAGEMENT

COMPUTERS AND IT
