## NAIT Graduate Employment Rates by Program

### Please note:

- This data is collected from program graduates approximately six to twelve months after the end of the year they graduate.
- Employment includes all employment, which may or may not be directly related to the field for which graduates have trained.
- The employment rate is calculated by  $(\text{graduates employed}) / (\text{graduates employed} + \text{graduates looking for employment})$ .
- Only those graduates who responded to the survey are included in the calculation.
- The count of graduates in this report may not equal the total number of graduates for the program.

## NAIT Graduate Satisfaction and Employment Survey

	All Years Combined			2022/23			2021/22			2020/21			2019/20
