HOW TO WEAR A MASK

BEFORE

- **Clean hands** with alcohol-based hand sanitizer or soap and water.
- Open mask fully to **cover from nose to below chin**. If the mask has a nose bar, pinch around your nose.

DURING

- **Avoid touching** the mask or your face under the mask. If the mask becomes damp, clean your hands and replace the mask.

REMOVING

- **Clean hands** with alcohol-based hand sanitizer or soap and water before and after you remove your mask.
- **Do not touch** the front of the mask. Remove using the ties or elastic loops.
- If you are wearing a disposable mask, **discard immediately** in a garbage can once removed.
- **Never** reuse disposable masks.

SANITIZATION STATION

PROTECT AGAINST COVID-19

DONNING NON-STERILE GLOVES

1
Wash your hands with soap and water or alcohol-based sanitizer

2
Take out a glove from its original box

3
Touch only a restricted surface of the glove corresponding to the wrist (at the top edge of the cuff)

4
Don the first glove

5
Take the second glove with the bare hand and touch only a restricted surface of the glove corresponding to the wrist

6
To avoid touching the skin of the forearm with the gloved hand, turn the external surface of the glove to be donned on the folded fingers of the gloved hand, thus permitting to glove the second hand

7
Once gloved, hands should not touch anything else that is not defined by indications and conditions for glove use

PROTECT AGAINST COVID-19

DOFFING NON-STERILE GLOVES

1 Pinch one glove at the wrist level to remove it, without touching the skin of the forearm, and peel away from the hand, thus allowing the glove to turn inside out

2 Hold the removed glove in the gloved hand and slide the fingers of the ungloved hand inside between the glove and the wrist. Remove the second glove by rolling it down the hand and folding into the first glove

3 Discard the removed gloves

4 Wash your hands with soap and water or alcohol-based sanitizer
