

## 2021-22 ACADEMIC YEAR – ENROLMENT PLANNING

As you plan and prepare for the upcoming fall term, you can find the name of your program in the table on the following page to know your program's:

### Course Enrolment Type

Self-enrolment means you are responsible for enrolling in your classes; program-enrolment means your program will enrol you in your classes.

- For self-enrolment programs, enrolment will open in early July. You can use these [helpful guides](#) to support you as you enrol. And don't forget to enrol before the [course enrolment deadline](#)!
- For program-enrol programs, you will be able to view your fall class schedule in your MyNAIT portal by July 19. Your program will also notify you via email when your schedule is available.

### Available Terms to Enrol

- All terms means you will be able to enrol in your classes for fall, winter and spring
- Fall term only means your program will only be able to enrol in fall term classes (winter enrolment for your program will occur mid-fall)

### Program Delivery

- **Blended:** this safely combines virtual learning with in-person instruction. You will be required to be in Edmonton for the start of your program.
- **Online – synchronous:** your classes will be virtual, in real-time. There will be scheduled class time where you need to login to a virtual classroom.
- **Online – asynchronous:** you can engage with the virtual course content at different times (and from different locations and time zones).
- **Online – synchronous & asynchronous:** this program is a combination of online – synchronous and online – asynchronous classes.
- **In-person, on campus:** your learning will be done safely in-person, and on-campus.
- **Blended/Hyflex:** course has a flexible structure where it's optional for students to attend sessions in the classroom, participate online, or do both.
- **Blended and online available:** this means that this program is offering both a blended mode of delivery option, and an online delivery option.

### Program Contact

Contact your program if you have any questions or need any support as you make your plans for the fall.
