

Governor General's Academic Medal

Danine Noble

Established in 1873, The Governor General's Medal is one of the most prestigious awards for academic achievement in Canada. The collegiate bronze medal is awarded at the post-secondary diploma level.

Congratulations to **Danine Noble**, the 2020 Governor General's Medal recipient for earning the highest overall average of any diploma student at NAIT.

An alum of the Digital Media and IT program, with a focus in Web Design and Development, Ms. Noble now works as a web developer at Kickbyte, a local digital solutions agency. At NAIT, she says she benefited from networking events, exposure to emerging technologies and by working on projects for real clients. Ms. Noble is quick to credit her instructors, saying "they gave me lots of encouragement and created the positive atmosphere I needed to succeed."
