

Auto Body Technician

Module Updates for the 2020/21 ILM Development Cycle

- **Maintenance Comments** – Comments from the ILM website Comments page have been addressed. For more information on which specific comments were addressed, please review the Comment statuses on the [Comments page](#).
 - Please note: some of the comments addressed are deferred maintenance comments from the TradeSecrets Comments board (no longer in use). These comments may not appear on the ILM website Comments page.
- **Images and Graphics** – Some images and graphics within the module have been updated to fix errors, improve image quality and/or replace images/graphics that were no longer available for use.
- **Course Outline Updates** – Module has been updated to reflect changes from an updated/revised Course Outline.

Period	Module Number(s)	New Version ¹	Maintenance Comments	Images and Graphics	Course Outline Updates
1	100101g	22.0			New ILM
	100102x	22.0			✓, New ILM
2	100202aA	22.0		✓	
	100202aB	22.0		✓	
	100204a	22.0		✓	
3	100303cB	22.0		✓	
4	n/a				

¹ ILMs are updated on a module-by-module basis. This means that not all modules in a Period are updated within the same cycle, and a combination of different version numbers within a Period is normal. The most current, published version of each module will always be the version that is posted on the [Order Modules](#) page of the ILM website.
