PROGRAM CHOICE CHANGE FORM

NAIT supports its applicants in selecting programs that fit their education and career goals. When submitting an application through Apply Alberta, applicants can select up to two program choices with every application fee and indicate one as their first choice and one as their second choice. NAIT's Admissions team will always evaluate the first-choice program first. If an applicant is offered admissions into their first choice, the second-choice application will be cancelled.

PLEASE NOTE:
- You can use this form to request to change the priority of your program choices in your application, turning your second-choice program into your first choice, and vice versa.
- This form cannot be used to add a new program choice, replace an existing program, or change the term on the application.
- Applicants can change the prioritization of their program choices at any time prior to acceptance or cancellation.

Applicants who wish to change the priority of their program choices should follow the instructions below:
1. Complete the form below.
   - *It is mandatory that you complete all fields. Application number(s) can be found on your Student Center under Application Status.*
2. Upload the completed form to your MyNAIT portal, Submission of Documents section.

Applicant Name: (Last, First)	NAIT Student ID Number:
Phone Number:	**Email:**

Request to change your application program choices to:

FIRST CHOICE	PROGRAM NAME:
